

PANT FIT GUIDE WOMEN

► There are a lot of pant cuts and some of them will keep you looking amazing based on your body shape. Find out which ones work best for you!

Straight cut/ Semi-straight cut

They maintain the same width from knee to ankle. The width of the leg can vary but it never flairs at the ankles.

- Pear
- Rectangle
- Apple
- Hourglass

Bell-bottoms or Flared

They become wider from the knees downward, forming a bell-like shape. This style has the widest leg opening of all cuts.

- Pear
- Apple
- Hourglass
- Inverted triangle

Boot / cut

They are very similar to straight cut pants but they have a slight flare usually starting mid-calf to accommodate a boot.

- Pear
- Rectangle
- Hourglass
- Inverted triangle

Tapered

They are very similar to straight cut pants but they have a slight flare usually starting mid-calf to accommodate a boot.

- Rectangle
- Inverted triangle

When choosing a pair of pants also **consider the fit:**

Low-rise

These pants sit lower than the navel, on or below the hips.

- Rectangle
- Hourglass
- Triángulo invertido

High-rise

These pants sit high on or above the hips and higher than the navel.

- Pear
- Apple
- Hourglass
