

WOMEN'S BODY TYPES

► Do you know your body type ?

Knowing your body type is the first step in determining how to dress to look your best. Discover yours!

Pear body type

Your hips are wider than your shoulders. You have a defined waist a flat stomach and small bust.

Rectangle body type

Your shoulders, waistline, bust and hips are around the same size.

Apple body type

Your shoulders and hips are around the same size. There is little difference between the measurements of the chest, waist and hips. Your middle tends to be full and your legs thin.

Hourglass body type

Your shoulders and hips are around the same size. You have a defined waistline and proportional bust.

Inverted triangle body type

Your shoulders are wider than your hips. They are the widest part of your body. There is little definition between the waist and the hips. Occasionally the bust is large.

 A large central illustration of a woman in a bikini, standing with her hands on her hips. She is surrounded by concentric dashed circles. To her right is a red circle containing a white question mark. Dashed lines connect this central figure to the smaller illustrations of the five body types.
